

REMARKS

Claim Status pursuant to 37 C.F.R. § 1.173(c):

Claims 1-43 are pending in this reissue application.

Claim 17 has been amended to correct a defect in its dependency. Claim 17 of the '407 Patent depends from claim 1 and recites that "the safety shield is made of polycarbonate plastic." Claim 1, however, does not introduce a safety shield and therefore no antecedent basis exists for the safety shield recited in claim 17. Claim 17 has been amended to depend from claim 16, which recites a safety shield and thereby provides the necessary antecedent basis to render claim 17 definite. Support for claim 17 is found at col. 5, lines 42-44 of the '407 Patent.

Claims 27-45 have been added to recite additional structure of the invention. Support for claims 27-45 can be found in the '407 Patent, among other places, as indicated below:
